Overview of the Organization:

buildOn is a not for profit organization working to break the cycle of poverty, illiteracy and low expectations through service and education. In the United States, buildOn runs intensive service learning programs in 40 under-resourced, urban high schools in seven major cities. Through these programs buildOn empowers youth to transform their communities through service. Over the last 26 years 100,000 youth have contributed more than 2.0 million hours of service and touched the lives of more than 1.0 million people living below the poverty line. 97% of these students graduate high school even though more than 40% of kids going to the same schools drop out. Teams of youth from our urban programs also fan out across the world to help build schools in the economically poorest countries on the planet. We have now built over 1,200 schools in Mali, Malawi, Senegal, Burkina Faso, Haiti, Nicaragua and Nepal. Community members from every village where we build have contributed over 2.0 million volunteer work days to build these schools. Through our Community Teams initiative, any student from any high school, college or university can organize, crowd raise and go build schools. This year alone, more than forty teams will travel to buildOn partner countries, live with host families in remote village and work alongside parents to build schools.

Overview of the Role:

The Trek Leader's primary focus is to prepare, plan, and lead best-in-class buildOn treks within their country. There are two primary Trek types.

- **Treks for buildOn Partners** - an opportunity for supporters (high school, college, corporate, family, small group, and individuals) to travel and work in solidarity with community members who are also contributing to the construction of a school in their village.
- **Treks for buildOn US** - made up of high school students participating in the buildOn US service learning program from some of the most challenged communities across the nation where school systems and families have limited access to resources. Trek is an opportunity for these students to experience tremendous personal growth through travel to the developing world, to work and live in solidarity with rural community members, and to bring those experiences back to their community through Trek presentations.
