Overview of the Organization

buildOn is a not for profit organization working to break the cycle of poverty, illiteracy and low expectations through service and education. In the United States, buildOn runs intensive service learning programs in 40 under-resourced, urban high schools in seven major cities. Through these programs buildOn empowers youth to transform their communities through service. Over the last 26 years 100,000 youth have contributed more than 2.0 million hours of service and touched the lives of more than 1.0 million people living below the poverty line. 97% of these students graduate high school even though more than 40% of kids going to the same schools drop out. Teams of youth from our urban programs also fan out across the world to help build schools in the economically poorest countries on the planet. We have now built over 1,200 schools in Mali, Malawi, Senegal, Burkina Faso, Haiti, Nicaragua and Nepal. Community members from every village where we build have contributed over 2.0 million volunteer work days to build these schools.
